

# Performance Measures

Giving you the right tools for cash flow & profit

## Understand your key business information and get the tools you need to boost your business performance

Performance Measures will teach you the difference between cash flow and profit and, using the new features in your software, show you how these both impact and drive your business.

Attend this seminar to:

- > Improve your business by understanding the difference between cash flow and profit
- > Learn how to avoid cash flow issues by using the new features in your software
- > Better understand your payables, receivables, inventory and costs and their impact on your cash flow
- > Understand your business performance by getting key financial information from the new **Business Insights Dashboard**
- > Understand what the profitable areas of your business are and how to measure them against your goals
- > Work out your break-even points and understand how to set financial goals
- > See how the new MYOB software Features Release will help make your business life easier.
